

# „Free Iran“

## Petition to the Swiss Parliament and Federal Council

In Iran peaceful demonstrations and protests of the population are broken-up brutally by the government, women and minorities repressed and people with different political views systematically pursued. Torture and executions of political enemies are common, so is corruption and state arbitrariness.

The strength and amount of brave protests and strikes in Iran show the discontent of large parts of the population. Who tolerates the behavior of this inhuman regime, strengthens and supports, not only the suppression of the Iranian people, but also international terrorism and Iran's nuclear armament.

**Switzerland stands for democracy, liberty and human rights. Therefore silently watching the crimes of the Islamic Republic of Iran is not tolerable. We demand from Swiss Parliament and Federal Council:**

- that Switzerland condemns the behaviour of the Iranian regime unambiguously and supports the efforts of the Iranian people for freedom and democracy;
- that Switzerland consequently, uncompromisingly and with all means supports the implementation of human rights in Iran.
